

## Aliplast's closed-loop recipe for reusing plastic packaging

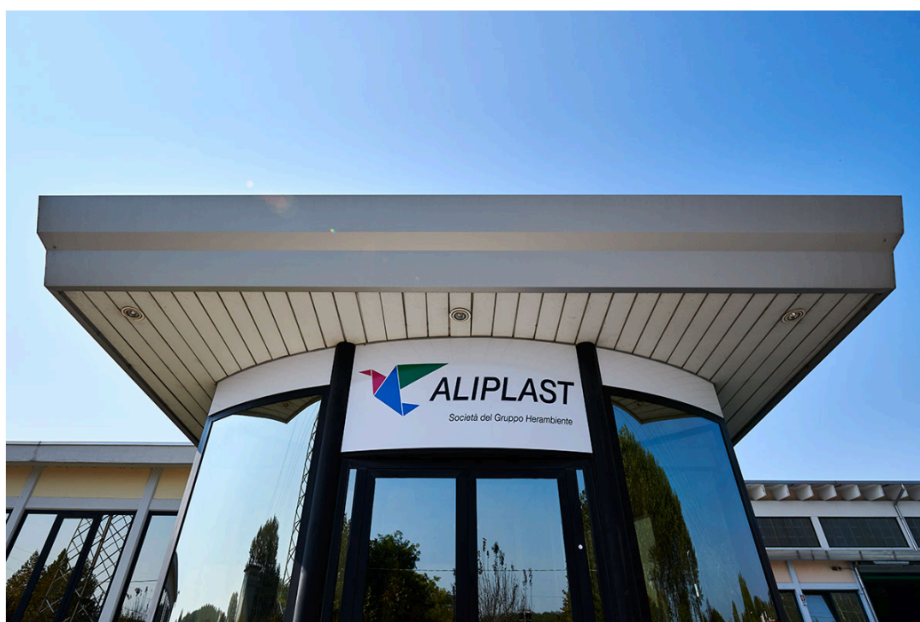

*Reducing cost and giving new life to plastic waste*

*Aliplast headquarter in Ospedaletto di Istrana (Treviso)*

A circular system allows the introduction of plastic materials in the recycling cycle, reduces costs, and impact on the environment. Aliplast, a Gruppo Hera company and European leader in the production of flexible PE films, PET sheets, and regenerated polymers, has developed a closed-loop system that can be leveraged by...
