

## Recycler Aliplast takes over PET processing plant in Italy

4 April 2025

**Media Voucher:** For our colleagues in media and PR (more...)

— By PIE staff —

Composites specialist **Gurit** (Wattwil, Switzerland; [www.gurit.com](http://www.gurit.com)) has sold its PET recycling plant in Italy as previously announced. The site in Carmignano di Brenta was acquired by recycling company **Aliplast** (Ospedaletto d'Istrana, Italy; [www.aliplastspa.com](http://www.aliplastspa.com)), a subsidiary of the **Hera Group** (Bologna, Italy; [www.grup-pohera.it](http://www.grup-pohera.it)). The purchase price was not disclosed.

With five plants across Italy, France, Poland, and Spain, the Hera Group subsidiary reportedly processes more than 100,000 t/y of plastics waste (Photo: Hera Group)

The facility in Carmignano di Brenta, located near the northern Italian city of Vicenza, has a capacity of 15,000 t/y of PET recycle. With this acquisition, Aliplast not only expands its recycling capacity, but also gains additional storage space.

**Related:** Swiss composites specialist Gurit slips into the red

Aliplast, which operates sorting and recycling sites in Italy (Borgolavezzaro, Gualdo Cattaneo, Formigine, and Quinto di Treviso), France (La Wantzenau), Poland (Tuszyn), and Spain (Onda), produces over 100,000 t/y of recyclates based on PET, LDPE, and HDPE, as well as polypropylene from post-consumer waste.
