

HERAmbiente

HERAMBIENTE SERVICES ACROSS EUROPE

IF YOUR PLANTS COULD TALK, THEY WOULD CHOOSE HERAMBIENTE

Every day, our well-established relationships lead us to several countries across Europe. We ensure that our foreign partners receive a constant and reliable supply of dedicated waste, which, while complying with all applicable regulations, contributes to the maximum efficiency of their facilities. We do it seriously, thanks to the waste of the over 3,000 companies we serve in Italy.

We also facilitate our European partners' access to new markets, by including their output in the offers with which we bid in public tender procedures held in Italy. To this, we add the solidity of the great organization we belong to, the Hera Group, one of Italy's leading multi-utilities, capable of generating a gross operating margin above Euro one billion.

Whatever **waste**
you can treat,
we can deliver.

Whatever **quantity**
you need,
we can source.

Whatever supply
frequency you want,
we can provide.

Whatever **certification**
you require,
we can meet.

HERAMBIENTE

Heraambiente, a Hera Group company, is **the leading Italian operator in the waste sector** in terms of the volume of waste it treats and the number of facilities it operates. It sustainably deals with the **entire urban and industrial waste management cycle**, offering integrated solutions **to over 3,000 companies**. With its **90 certified plants**, Heraambiente can treat any type of waste, with excellent performance in terms of efficiency and reduction of environmental impact.

Heraambiente is 75% controlled by Hera and 25% by EWHL, European Waste Holdings Limited, a company incorporated under British law, 50% owned by 3i Managed Infrastructure Acquisitions LP, a British infrastructure fund, and 50% by the Dutch pension fund Stichting Pensioenfond ABP.

► Revenues over **700** million euro

► More than **4** million tonnes of special waste treated per year

► About **7** million tonnes of waste treated per year

► Over **900** GWh of electricity produced per year

► About **150** GWh of thermal energy produced per year

► About **600** k tonnes of waste traded per year

HERA GROUP

Founded in 2002, the Hera Group is now among the main Italian multi-utilities and provides **environmental, water, and energy services**, as well as **public lighting** and **telecommunications**.

With 9 thousand employees and a turnover of more than Euro 7 billion, Hera Group responds every day to the needs of **over 4 million citizens** in **over 300 municipalities**, mainly located in Emilia-Romagna, Veneto, Friuli-Venezia Giulia, Marche, Tuscany and Abruzzo.

In 2019, Hera shares have been included in the **FTSE MIB**, the main index of Borsa Italiana, which comprises the 40 largest stocks listed on the Italian stock exchange in terms of capitalization, liquidity and trading volume.
